

DESIGNED FOR RETAIL/HOSPITALITY/C-STORES

> 2 & 3KVA UPS POWER HUB CENTRALIZED CONDITIONED BATTERY BACK UP SYSTEM

The NXT Power Hub 2 & 3 kVA provides centralized power protection in a compact, efficient platform designed for sensitive and mission-critical electronic devices. Built on NXT Power's proven isolation-transformer-based technology, it delivers a continuous supply of clean, conditioned power with seamless battery backup and protects equipment from outages and everyday power disturbances.

INDUSTRY-LEADING EFFICIENCY AND PERFORMANCE

Power conditioning is critical to reliable system performance, especially in environments with multiple distributed loads. Centralizing power conditioning and battery backup reduces complexity, lowers cost, and minimizes footprint with a single wall-mounted solution. By integrating power conditioning, electrical isolation, and bypass functionality into one compact platform, Power Hub simplifies power infrastructure while improving uptime, reliability, and long-term equipment performance. Optional IP monitoring provides real-time visibility into system status and performance.

PRODUCTS SPECS

MODEL #	INPUT VOLTAGE AC~	OUTPUT VOLTAGE AC~	MAXIMUM LOAD RATING (AMPS)	MAXIMUM POWER (VA)	FREQUENCY (HZ)
NPH2000-H-N	120	120	16	2000	50/60
NPH3000-H-N	120	120	24	3000	50/60

SIMPLIFIED INFRASTRUCTURE | TOTAL CONTROL

The NXT Power® Power Hub™ 2 & 3 kVA is a centralized power conditioning platform that, when partnered with our ARES PLUS 2 & 3 kVA UPS, delivers clean, isolated power with seamless battery backup to protect sensitive, mission-critical equipment from outages, surges, and everyday utility disturbances.

ADDITIONAL PRODUCT INFORMATION

- Product Sizes: 2kVA and 3kVA
- ARES PLUS UPS partnered with our exclusive Power Hub
- Low-impedance isolation transformer built within
- Internal, power-conditioned bypass for overload
- Isolated outlets / dedicated circuits
- Includes NXT Power 3-Year warranty
