

SUPPORTING POS/RETAIL OPERATIONS

**> INTEGRITY PRO
RETAIL UPS LINE**

The sleek design of the Integrity Pro Retail UPS is specifically designed for advanced POS terminals as it can easily incorporate itself seamlessly into POS environments such as restaurants and C-stores. Our Integrity Pro Retail UPS is the perfect solution for providing clean, conditioned, and uninterruptible power for your POS terminals.

POWER QUALITY YOU CAN RELY ON

Its sleek design is specifically envisioned for POS terminals and small office systems. Engineered with a low impedance isolation transformer, a surge diverter and noise filter within its UPS design to deliver fully conditioned power. This prevents noise, spikes, and transients before they can damage or degrade your equipment. The Integrity Pro Retail UPS also provides a 24 V DC connection and eliminates the need for a power brick or otherwise known as a "wall wart". Every unit meets the safety requirements of UL1778 to ensure product safety and reliability all the while providing best in class power quality.

**SUITABLE FOR USE WITH:**

- > Point of Sale Terminals
- > Ticket Printers
- > Back-office IT Systems
- > Security Cameras
- > Credit Card Readers

**SUPERIOR POWER PROTECTION
BENEFITS & FEATURES**

- Low impedance isolation transformer and line interactive battery backup operation
- Help your retail customers protect their electronic systems and ensure uptime
- Standard USB communication for Windows operating systems
- Enjoy peace of mind knowing your equipment is protected from problems due to common-mode voltage, power outages, spikes and transients
- 24V DC Connection for printer connection
- Listed to UL 1778
- Product sizes ranges are 250VA and 400VA
- Includes NXT Power Full 3-Year Warranty

- SHIPPING WEIGHT: 37lbs/17kg

NXT GROUND PROTECTION BUILT IN

SURGE DIVERTER & NOISE FILTER

LOW IMPEDANCE ISOLATION TRANSFORMER

BATTERY BACKUP SYSTEM

24V DC Connection

Every NXT Power INTEGRITY PRO Desktop UPS has “NXT GROUND” integrated within each unit and combines surge diversion with a highly effective low impedance isolation transformer and noise filtering. NXT GROUND provides networked systems with benefits beyond traditional power conditioners by eliminating ground loops that cause system lock-ups.

WE ARE DEDICATED TO PRODUCING THE BEST POWER QUALITY SOLUTIONS AND PRODUCTS FOR YOUR BUSINESS.

We manufacture power quality solutions using proven technology and the latest industry knowledge to deliver the cleanest, most reliable power available to businesses in a diverse range of markets and industries.
